

VOL. XLIV.

PIOCHE, NEVADA, THURSDAY, SEPTEMBER 20, 1894.

NO. 1.

TELEGRAPH NOTES.

PARIS, Ky., Sept. 16.—Ben Duval shot and fatally wounded Ed. Falkner, aged 22. The trouble originated over the former's challenging the latter's vote at yesterday's election.

RENO, Nev., Sept. 16.—The jury in the case of Mrs. Alice Hartley, charged with the murder of State Senator M. D. Foley, returned a verdict this morning of guilty of murder in the second degree, and recommending the defendant to the mercy of the court.

LINCOLN, Ky., Sept. 15.—The contest to-day between W. C. Owens, W. C. P. Breckinridge and E. E. Settle for the Democratic nomination for Congress from the Seventh district, was decided in favor of Owens. It was not a political fight, it was a moral contest for weeks and months, and during the last few days it became intensely personal. Opland Breckinridge was fighting for life, and he never before made such speeches or displayed such executive ability in organization.

WASHINGTON, Sept. 14.—Thomas Taylor, 33 years old, killed his wife, 25 years old, to-day by shooting her with a pistol, which he then turned on himself. Taylor's wound is not dangerous, however, the wounded wife having turned her arm to one side just as he was about to put a bullet through his heart. The couple had quarreled frequently and jealousy caused the deed. Taylor accused his wife of undue intimacy with other men.

SHELBYVILLE, Ind., Sept. 14.—A sensational arrest was made in Washington township last night. For a week the service has been trying to locate "Buck" Harlan, one of the most dangerous counterfeiters in the West. Last week Philip and Nellie Coup, of circus notoriety, were arrested in Marion county and turned up with hundreds of dollars of spurious coin in their possession, which had been furnished them by Harlan. It was learned that Harlan was a brother-in-law of the notorious "Babe" Hawkins. Garter drove to the home of "Babe," which is located in a dismal spot in Shelby county, and with the assistance of Detective Taylor, placed Harlan under arrest.

PITTSBURGH, Penn. Sept. 14.—The strike at the New York & Cleveland Gas Company's mine is over. The men have been out five months. The company has individual contracts with its men to work at 55 cents a ton. The Columbus scale fixed the rate at 69 cents and the men were called out. During the past week the men have been breaking away and to-day several mines were in operation, while the entire plant will be running by Monday. About 5,000 men are employed by the company. A vigorous effort was made to win the strike as it was claimed that it was lost the other operators would cut wages to meet the New York & Cleveland Company's prices.

BERLIN, Sept. 13.—During Emperor William's visit to Marienburg, red posters bearing the words, "Down with the Emperor and monarchy," were found displayed in various parts of town.

BARBERSBURG, Mich., Sept. 13.—The Gogebie Powder Company's mill is still in great danger. The Fire Department has been fighting the fire for the last twenty-four hours, and is almost exhausted. The fire is fierce, and the wind strong. Trout Creek, Mich., on the south shore, is in imminent danger. At Iron Belt, Wis., on the Wisconsin Central, several buildings were burned. An unknown miner was killed by heat at Wakefield. Four hundred million feet of pine are being burned in Gogebie and Ontonagon counties.

WASHINGTON, D. C., Sept. 13.—One of the representatives of the Department of Agriculture abroad, Col. Charles Murphy, has reported to Secretary Morton the award of a gold medal at the Universal Exposition at Antwerp, Belgium, to the California wine exhibit. The California wines failed to reach the exposition until two weeks after all the awards had been made and the jury had adjourned. The persistence of Colonel Murphy, backed by the influence of Gore, the American commissioner-general, finally succeeded however, in having the jury reconvened, with a satisfactory result. Colonel Murphy's address to the jury was a most creditable one.

CHICAGO, Sept. 13.—The fireboat "Yosemite," wrecked on Hyde Park reef last night, sank to-day. The crew of ten men to attract the attention of the life-saving station, made torches of their clothing, saturated with kerosene and attached to long poles. These improvised signals were waved by firemen. The kerosene trickled down, painful burning their hands and arms but even excruciating pain did not make them cease their efforts. The boat was facing a heavy gale when she struck the reef and at once began filling with water, which put out the fires. For five hours the crew bailed, while the Jackson Park life saving crew, under command of Captain St. Peters, attempted to reach the gradually sinking craft. Three times the life boat capsized, throwing the crew into the lake, but each time the boat was righted, and within a few moments time the "Yosemite" plunged to the bottom. The water-drenched life savers took off ten fatigued men.

A number of fishermen have been arrested in Portland, Or., for fishing in the navigable waters of the Columbia river.

The Carson Appeal has established a tariff of \$1 for drummers whenever they want a notice of their arrival in the city.

Wholesale Vaccination.

A few weeks ago the sultan of Turkey had his wives vaccinated. As no female doctor had yet found her way to the Bosphorus there was nothing for it but to admit a medical man to the apartments of the imperial ladies. The devotees of Mohammed need be under no apprehension. The laws of the prophet were not transgressed, nor were the odalisks exposed to the gaze of any other man except their august lord and master. A partition was erected in a room of the palace in which a hole was cut out. Through this hole 167 of the most beautiful arms in the world were thrust forth in succession. There were arms of snowy white and ebony black—in short, arms to suit all tastes—but the doctor, an Italian named Muracci, saw nothing beyond these arms.

The operation was effected in the presence of a crowd of eunuchs, including Manour Ali and Desly Mar. The latter is a stalwart Abyssinian, who covered the head of the doctor with a black cloth at every change of the arms. Later advice from Constantinople informs us that 12 of the prettiest young ladies have suddenly died from blood poisoning consequent on the above operation.—Nene Frele Presse.

Heart Failure No Longer Accepted.
The registration and sanitary committee of the board of health has addressed the following notice to the physicians of the city:

"As the board of health is doing all in its power to prevent the spread of contagious diseases, you are requested not to place on any certificate 'heart failure' as the cause of death, but the disease of which the patient was suffering prior to the heart failure. This term has never been placed on the list of diseases adopted by this board, it being looked upon as a result of some other illness from which the patient was suffering. Furthermore, it furnishes an opportunity to conceal contagious diseases, and thus permits the ignoring of the rules of this board by the family and undertaker, either innocently or designedly.

"Hereafter a burial permit will not be issued on the certificate of death of 'heart failure' when unaccompanied with the disease from which the heart failure occurred."—Philadelphia Times.

Patheview For Royalty.
An amusing episode occurred the other day in connection with the royal wedding. The Duke of York went with the Princess May to open a new town hall which has just been erected at Richmond. Just before the royal party drove up a very old woman laden with an enormous parcel pushed her way to the front and refused to pay any attention to the protests of either crowd or police. When threatened with "superior force," however, she admitted that her object was to present her wedding gift to the royal couple. On inquiry this proved to be a gigantic patchwork quilt of worsted stockings for the Duke of York. The old lady had made them and was determined to present them herself. It was, however, represented to her that this was an unsuitable occasion, and she retired with the intention of taking them to White Lodge.—London Letter.

Summer Sundays In England.
One of the problems of our social life, says an English society journal, is "what to do on Sunday during the summer, and this year it is decreed that the right thing is to betake ourselves to the river. Paddling station on Sunday morning is almost as fashionable as a ball given by one of the upper ten thousand, and in the delightful sunshine which we had all been enjoying Father Thames, its locks and its banks have been bright with the gay coloring of the dresses which it is no longer considered bad taste to affect."

A Talking Donkey.
The secret of teaching donkeys to talk is said to have been bought from a Tunisian chief by a French impresario for the sum of \$850, and at least in one case it has proved a success. The wonderful animal in question, which has not yet appeared in public, though it will shortly do so, does not indeed carry on connected conversations, but can clearly articulate a large number of phrases in both the French and English languages.

A Mad Cat.
Little Dot—Oh, mamma, I'm afraid the cat's got hydrophobia.
Mamma—Mercy me! Why?
Little Dot—I threw some water on her, and she gave a awful yowl.—Exchange.

Platform.

Your Committee on Resolutions and Platform, having attended to the duty assigned them, beg leave to make the following report:

WHEREAS: It has been demonstrated by the history of the last two years—pregnant with bonds and bankruptcies at home, corruption and cowardice in foreign relations, disaster and death, starvation, strikes and general stagnation of all business enterprises—that the People's Party was formed too soon to avert the complete destruction of our form of government and the liberties of our people. Therefore be it

Resolved: That we endorse the declarations of our platform.

PEOPLE'S PARTY PLATFORM.

Adopted at the National Convention July 4, 1892.

We declare: 1. That the union of the labor force of the United States, this day consummated, shall be permanent and perpetual. May the spirit enter into all hearts for the salvation of the republic and the uplifting of mankind.

2. Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robbery. If any will not work, neither shall he eat. The interests of rural and civic labor are the same; their interests are identical.

3. We believe that the time has come when the railroad corporations will either own the people or the people must own the railroad, and should the government enter upon the work of owning and managing any or all railroads, we should favor an amendment to the constitution by which all persons engaged in the government service shall be placed under a civil service regulation of the most rigid character, so as to prevent the increase of the power of the national administration by the use of such additional government employees.

4. We demand a national currency, safe, sound, and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the need of banking corporations, a just, equitable and efficient means of exchange direct to the people, at a tax
